

Affandy's Lab

Discovery Kit

Who Are We?

Digital crafters for brands, public figures, and listed companies.

We've spent years of experience working across industries from branding and fintech to hospitality, healthcare, and property, so we understand how each space moves and what it needs.

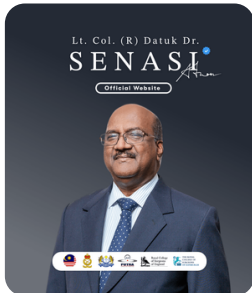

“Trusted by brands, figures, public companies and growing businesses across Malaysia.”

We build websites, e-commerce, and visual ecosystems that are clear, useful, and built to last. Not just to look good, but to work well over time.

You might find us working quietly, moving between places, but our standard never changes.

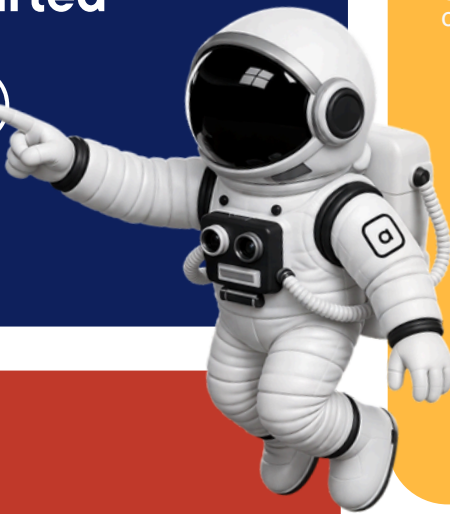

We craft with care.
We refine with intention.
We deliver with trust.

We love what we do.

Getting Started

E-Commerce

Sell online, built to convert

Web Redesign

Improve what you already have

Website Development

Built from scratch, your vision

Web Maintenance

Ongoing support & updates

Collaboration & Partnership

Let's build together
